

# 2005 Agency Award Winners

## Service to the Community

*The Supportive Work Environment Award recognizes employees or teams who contribute in an extraordinary way, supporting the success of other individuals or groups in the agency.*

### INDIVIDUAL WINNER

**Dolores Mitchell**

**Industrial Section,  
HQ-SWFAP**

★ Dolores handles public involvement projects for the Industrial Section of the Solid Waste and Financial Assistance

Program, but her day doesn't end when she leaves the office. Dolores brings the same professional attributes that make her an asset to the agency to her community service.

★ Her legal background and skills in communication, dispute resolution, and facilitation are put to good use in serving her neighborhood, her church, Habitat for Humanity, Safeplace, school and college organizations, public radio, and organizations that aid the disabled.

★ This is only a portion of the beneficiaries to which Dolores has contributed hundreds of hours without asking for praise or recognition. The nominator states "Dolores is one of those 'bricks and mortar' people whose unpaid work supports our community..." and "I would love the chance to applaud this truly good person."

**No Teams Were  
Nominated For This Award**
